DETAILED ACTION

Specification

1. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 40 and 42-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over McGahee in view of "Uni-Knot".

The patent to McGahee shows a quick connect for fly fishing using a hook 15 having an eye 18 and a blocker 19 formed on the eye as an integral part thereof as shown in Fig. 1 to prevent the loop 14 from sliding off of the eye. McGahee shows loop 14 as fixed and first and second fishing devices 4 and 15. The Uni-Knot has been discussed in previous Office Actions and shows a sliding knot having a first section and a second section with first and second ends. The Uni-Knot shows first and second loops. In reference to claims 40 and 42-44, it would have been

obvious to provide McGahee with a sliding loop as shown by "Uni-Knot" to replace the fixed loop since merely one loop is being substituted for another and the function is the same.

Art Unit: 3643

Allowable Subject Matter

4. Claim 41 is allowed.
5. Claim 45 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims 40, 42-44 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3643

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
